BIOLOGY&EDUCATION
(G845 & C023)**

**ACCOMPANYING PROGRAM GUIDE
TO MA STEM HANDBOOK
FOR
BA/ BS BIOLOGY MAJORS**

**ELIGIBILITY FOR ADMISSION
AND COMPLETION OF PROGRAM
2026-2027**

INTRODUCTION

The purpose of this program guide is to provide all native and transfer, students interested in pursuing K- 12 Biology certification in the STEM Education- Accelerated Biology program the requirements needed to accomplish a certification in the teaching of Biology. The following pages provide the candidate with benchmarks for program entry and completion along with general College of Education policies regarding this program.

Candidates are also provided with a sample Table (Table 1) that demonstrates possible program course sequence that can be targeted to help develop their content background for teaching middle and/ or high school Biology. ***Please note that Table 1 is merely a sample for demonstrative purposes. Choice and sequence of Biology courses and general education courses need to be confirmed with the undergraduate science advisor. Candidates can choose to target any science content core courses throughout their Biology program only with the consent and approval of their science education advisor.***

Education based courses in particular, that are to be taken prior to any graduate level course belonging to the MA STEM sequence, must be approved through the undergraduate STEM -Education -Accelerated science and education advisor.

NOTE: Please be aware that any disciplinary or academic sanctions will/may result in extended time for program completion and will prolong graduation.

Benchmark Exemptions:

On June 4, 2014, the State Board of Education adopted new regulations for teacher preparation program entry and teacher certification. These rules include a new basic skills requirement:

- Candidates starting a traditional teacher preparation program in or after the 2015-16 academic year must pass a basic skills assessment prior to starting coursework in a program
- Alternate route candidates seeking a Certificate of Eligibility (CE) must pass a basic skills assessment to obtain the CE as of September 1, 2015.

Candidates seeking Limited CEAS (see: [Limited Instructional Certification of Eligibility \(CE\) and Certification of Eligibility with Advanced Standing \(CEAS\) Candidate Guidance](#)) can have either GPA waived or a praxis core score waived upon application of the MA STEM program. Please indicate this if you seek a Limited CEAS to your undergraduate **education** advisor (*please also see the MA STEM Program handbook for more information on alternate pathways requirements to certification*)

See <https://www.nj.gov/education/certification/testing/req/> for required cut scores per subject area

PROGRAM TRANSITION POINTS AND REQUIREMENTS

Entry requirements into BA/ BS Biology

- Meet entry requirements for the BA/ BS Biology Program please see:
- <https://csm.rowan.edu/departments/bbs/academic-programs/undergraduate/bio-ba.html> and <https://csm.rowan.edu/departments/bbs/academic-programs/undergraduate/bio-bs.html>

Transition Point 1: Entry Requirements for Education Coursework in Senior Year (Deadline: March 31 during Junior Year)

- *Achieve and maintain Overall/ Cumulative GPA of 3.0 or above (if between 2.75 and 3.0 – possibility of entry pending entry cohort average)
- Grades C- or better in any undergraduate education courses. Required courses for entry into the MA in STEM Education program may only be attempted twice.
- Submission of Matriculation packet to STEM Education- Accelerated advisor **by August 1st** prior to entry into Senior year
- Submission of NJDOE Criminal Background check **by August 1st** prior to entry into Senior year
- Submission of clear TB test **by August 1st** prior to entry to Senior year. Mantoux (TB) Tests: School districts are now requiring current TB tests for all field placements. Please visit <http://www.rowan.edu/colleges/education/ofe/mantoux.html> for details.
- Attend advising session with College of Education Advisor
- Completion with a C- or higher in Adolescent Development and either a Health and Wellness course or any general Biology course or a nutrition course.

Transition Point 2: Entry Requirements for Matriculation into MA STEM (March 31 of Senior Year)

- *Achieve and maintain Overall/ Cumulative GPA of 3.0 or above (if between 2.75 and 3.0 – possibility of entry pending entry cohort average)
- Grades C-or better in any undergraduate education courses. Courses required for the MA in STEM Education may only be attempted twice.
- Grades for Graduate courses being taken as part of matriculation in the senior year for MA STEM must have a minimum of B- each.
- *Praxis II in Biology: Content Knowledge; test code (5236) and General Science Knowledge (5436) by **Prior to graduation from MA STEM graduate program** (Required score: **154 and 141 consecutively**) See: <https://www.nj.gov/education/certification/testing/req/>
- Completed Full Year Residency application in the College of Education designated database system (**Between November 1, - November 30 during senior year**)
 - *Note: Students will be placed in the 7 most southern NJ counties for their Clinical Practice Placement; Burlington, Camden, Gloucester, Atlantic, Cumberland, Salem and Cape May. No exceptions will be made.*

Transition Point 3: Checkpoint for completion of BA/BS and senior level education coursework (End of Spring – semester i.e., semester 8-senior year)

- Submission of Transfer & Transition Forms
- Proof of completion of BA/ BS requirements in Biology demonstrating a coherent sequence of at least 30 credit hours of content specialization courses; 12 of which are at the 300 level or higher.
- Complete successfully the following **two undergraduate required courses** :
 - Adolescent Psychology (or confirmed state equivalent)
 - Health & Wellness or Nutrition or Biology (human related preferable) If not completed see graduate advisor regarding alternative.

Transition Point 4: For successful program completion (At the end of the graduate year)

Overall GPA of 3.0 or better (*nonnegotiable / non appealable*) at exit of the program with no course grade lower than B-- and no *Incompletes*. Meets minimum expectations on all signature assignments.

- *Successful submission and completion of Institution approved summative teacher performance assessments (iTPA and Impact on Student Learning Assessment).
- Final residency evaluation demonstrates “Developing” or higher on all Danielson Framework indicators and “Meets Expectations” or higher on all SPA addendum indicators as evidence by successful completion of STEM 60512 AND 60513
- Successful completion and recommendation for certification from Rowan University Clinical Practice supervisor and Program Coordinator.

Graduation and Certification: Please note the completion and submission of both graduation and teaching certification applications. See dates listed on the Registrar’s webpage at www.rowan.edu/Registrar. Students apply for graduation electronically through banner self-service and apply for certification through the College of Education Advising Center (CEAC). A student can obtain a cert application through the College of Education Advising Center or online on the College of Education webpage. **It is important that these forms be submitted to the appropriate office by the printed deadline dates.** “Walking” papers are not a means to graduate. It is only a means to participate in the commencement ceremony. Go to www.rowan.edu/registrar (under forms) for the Commencement Participation Form and deadline/details (signatures are needed). Completed certification application with Office of Clinical Experience at College of Education. Deadline: **January 15th -March 31st of graduate year.**

***Essential Notes**

- Please note that required values and passing for GPA, all praxis exams and iTPA/ Impact on Student Learning Assessment are non-negotiable and non- appealable.
- *Incomplete or unscorable tasks on iTPA/ Impact on Student Learning Assessment will/ may delay graduation and certification.*
- For all students, all of the **required courses and any eligible electives (*this means all allied science and math classes pertinent to your Biology GPA*) must** be used in the calculation of the Biology GPA (i.e., none of these courses is to be excluded in GPA calculation).
- For transfer (and native students taking any of these courses at other institutions), the Biology GPA is to be calculated from transcripts and coursework at Rowan.
- **Please also reference** both the MA STEM Program and Clinical Practice Handbooks for more detailed information

*STEM Education -Accelerated
(BA/ BS Biology Majors & MA in STEM Education)*

Table 1: Demonstrates a sample of course sequence throughout the STEM Education-Accelerated BA/BS Biology and MA STEM program. Courses listed are examples of courses that can be taken in Biology but decisions pertaining to choice of designated science courses is reserved for the relevant science department. Transition points indicate deadline for meeting particular benchmarks.

Year 1	Semester 1* (14 credits)	s.h.	Semester 2 (14 credits)	s.h
Courses that should normally be taken in the freshman year	COMP 01111: College Comp I	3	COMP 01112: College Comp II	3
	CHEM 06100: Chemistry I	4	CHEM 06101: Chemistry II	4
	HHL Elective (LIT)	3	BIOL 01106: Biology 2: Concepts in Genetics	4
	BIOL 01104: Biology 1: Diversity/Evolution/Adaptation	4	ACE Elective	3
Year 2	Semester 3 (16-17 credits)	s.h.	Semester 4 (16 credits)	s.h
Courses that should normally be taken in the sophomore year	CMS 04205: Public Speaking	3	BIOL 01204: Biology 4: Global Ecology	4
	STAT 02260: Statistics I OR STAT 02280: Biometry	3/4	Free Elective	3
	BIOL 01203: Introduction to Cell Biology	4	PHIL 09369: Philosophy of Science-WI and M/G	3
	Free Elective	3	Free Elective	3
	Free elective	3	Free elective	3
Year 3	Semester 5 (14credits)	s.h.	Semester 6 (14 credits)	s.h
Courses that should normally be taken in the junior year	Biology Lab Elective (300+)	4	Biology Lab Elective (300+)	4
	Free Elective	3	PSY 09210: Adolescent Development (SBS)	3
	HLTH 00103: Health and Wellness	3	Free Elective	3
	PHYS 00210: Physics 1 no calculus	3/4	PHYS 00211 : Physics 2 no calculus \	4
			TRANSITION POINT 1	
Year 4	Semester 7 (16 credits)	s.h.	Semester 8 (15-16 credits)	s.h
Courses that should normally be taken in the senior year	Biology Lab Elective (300+)	4	BIOL 01440: Special Topics in Biological Sciences	3
	*STEM 60501: STEM Teaching & Research Methods I	3	*STEM 60510: Teaching STEM in Diverse Settings	3
	*SMED 60550: Schools & Society	3	READ 30520: Adolescent Literacies	3
	Free elective	3	Free Elective	3
	Free elective	3	Free Elective TRANSITION POINTS 2&3	3-

* One of the courses taken freshman year must be a Rowan Seminar designated course.

STEM Education -Accelerated
(BA/ BS Biology Majors & MA in STEM Education)

Year 5	Semester 9 (9 credits)	s.h.	Semester 10 (9 credits)	s.h
Courses that should normally be taken in Master's degree year	STEM 60522: STEM Teaching & Research Methods: Science II	4	STEM 60523: STEM Teaching & Research Methods: Science III	5
	*STEM 60512: STEM Clinical Practice I	1	*STEM 60513: STEM Clinical Practice II	3
	STEM 60524 STEM Clinical Seminar 1	1	STEM 60525 STEM Clinical Seminar II	1
	SELN 60576: Inclusive Instruction in STEM Classrooms	3	TRANSITION POINT 4	

Year 5 (cont'd)	Semester 11 (3 credits)	s.h
Courses that should normally be taken in Master's degree year	STEM 60504: Professional Seminar for STEM Educators	3

*Indicates courses with fields.

STEM Education -Accelerated
(BA/ BS Biology Majors & MA in STEM Education)

For General Education requirements and credits please see your science advisor for your science major. However, please note that the courses required to earn initial NJ certification to teach in the public schools, but may not be required for BA/BS in Biology are. **Adolescent Development (satisfies SBS) AND Health and Wellness (HLTH 00103) OR a biology course OR a Nutrition course .**

Table 2 Demonstrates a sample breakdown of coursework

B.A. in Biology Coursework	
Biology Major Required Courses: 19 Credits	Credits
Biology 1: Diversity/Evolution/Adaptation	4
Biology 2: Concepts in Genetics	4
Biology 3: Introduction to Cell Biology	4
Biology 4: Global Ecology	4
Special Topics	3
TOTAL CREDITS BIOLOGY MAJOR COURSES	19

Restricted/Directed Elective Courses: 24 credits (Note: ***12 credits are required courses for the M.A. STEM Education Program)	Credits
Schools & Society: Foundations for Secondary Teaching***	3
STEM Teaching & Research Methods I ***	3
Adolescent Literacies ***	3
Teaching STEM in Diverse Settings ***	3
3 Biology laboratory electives 300-level or higher	12

***These courses will be double counted (accepted for both degrees)

Free Elective Courses: 30-31 credits

M.A. in STEM Education Coursework during the Residency Year Credit Hours Total (21)	
Additional M.A. STEM Required Core Courses	s.h.
Inclusive Instruction in STEM Classrooms	3
Professional Seminar for STEM Educators	3
STEM Clinical Practice I	1
STEM Clinical Practice II	3
STEM Clinical Seminar I	1
STEM Clinical Seminar II	1
STEM Teaching & Research Methods: Science II	4
STEM Teaching & Research Methods: Science III	5
TOTAL M.A. STEM CREDITS DURING RESIDENCY YEAR	21

***These courses are required to fulfill the Rowan Experience Requirements

*** Suggested Non-program courses but not compulsory
