

## **CAEP Annual Reporting Measure 7: Employment Information – Ability to Be Hired**

In the current environment, with districts desperate to hire highly qualified, certified teachers, Rowan University graduates are well positioned and often receive job offers from multiple school districts prior to and immediately following graduation. Though the EPP has anecdotal information regarding graduates who retain employment out of state, the most reliable employment data is provided by the New Jersey Department of Education's annual Educator Preparation Provider Performance Reports which provide the institution with data which track completers as they begin their in-service experience.

### **Academic Year 2016-2017**
