Program Features

- The Certificate of Undergraduate Study (CUGS) in Sustainability Education and Leadership has been developed within the Educational Services and Leadership department with the goal of promoting sustainability literacy. Students will develop an understanding of sustainability frameworks, principles, concepts, competencies, and their real-world applications in educational settings.
- Students will develop their leadership capacities and skills to enable them to lead sustainable organizations and initiatives.
- Students will develop skills to incorporate climate change education across the curriculum.

For more information regarding the certification process, please visit the College of Education Advising Center:
<http://www.rowan.edu/colleges/education/Advising.Center/certification/index.html>.

Minimum Grade and Cumulative GPA Requirements

- Open to all undergraduate students from any program at Rowan University.
- Students may be matriculated or non-matriculated at Rowan University.
- Students will complete all required program courses with a minimum 1.70 (C-) in all coursework.

For full details regarding satisfactory academic progress and graduation requirements, please visit www.rowanu.com/policies.

Program Evaluation

- All courses include assignments on which performance data will be collected each semester.
- Programmatic changes to enhance learning outcomes will be made annually or more frequently as needed.
