*BA IN EDUCATION – SPECIALIZATION IN SUBJECT-MATTER EDUCATION **

- III. **Application for Graduation and Certification:** Candidates can apply for **graduation** with a BA in Education with Specialization in Subject-Matter Education and **certification after successfully completing all of the requirements needed for both the BA in their chosen dual major and the BA in Education.** Even if the Professional Semester is completed, the BA in Education will not be awarded until all the requirements for the dual major are also met/completed. Candidates should apply for graduation for both BA degrees at the same time by the Registrar's posted deadline date. I understand that it is my responsibility to meet the University's deadline to apply for graduation. I further understand that failure to do so will result in my certification being delayed until the end of the semester in which I officially graduate even if I have completed all requirements.

I have thoroughly read the entire program packet and agree to its terms and conditions.

Program completion is not measured in time. Completion time will be impacted if students fail to meet with both advisors, meet benchmark deadlines such as passing PRAXIS I and II, meet GPA requirements, meet all general education courses or prerequisite requirements. Student generated changes will also impact program completion.

STUDENT RESPONSIBILITIES

(See University Undergraduate Catalog (www.rowan.edu/catalog):

“...It is the responsibility of the student to become knowledgeable of, and to observe, all University policies, regulations and procedures. The University is under no obligation to waive a requirement or grant an exception because a student pleads ignorance of a policy, regulation or requirement or because a student asserts that he/she has not been informed of such policy, regulation or requirement.

It is the student’s responsibility to become familiar with, and to remain informed about, all academic, administrative, financial or other policies, regulations or requirements concerning admission, registration, payment of tuition or fees, continued enrollment, grades and satisfactory program progress, graduation requirements or any other matter which affects the student. Students are especially expected to know the requirements of the program in which they are enrolled. While the faculty and staff (advisors) will endeavor to assist in every manner possible, students are responsible for becoming and remaining informed of current program and graduation requirements, their status in the program and their progress toward graduation.”

Please work closely with your education and dual major advisors to make sure that these requirements are satisfied. Your graduation and/or certification approval may be withheld if these requirements are not met.

ADVISEMENT INFORMATION

Because the time period for registration is limited, you are encouraged to make an appointment for advisement before Early Registration begins. Please visit www.rowan.edu/registrar for more information.

Even if the Professional Semester is completed, the BA in Education will not be awarded until all of the requirements for your dual major are also met/completed. Since both your education advisor and your dual major advisor approve you for graduation, meeting on a regular basis with both advisors will avoid any graduation/certification problems.

Be reasonable in your demands on your advisors’ time and resources: (1) Make an appointment to see your advisor, do not just “show up” expecting your advisor to be ready and willing to meet with you; (2) see your advisor well ahead of deadlines [If you wait until the last minute you will not get the attention you are seeking.]; and (3) be sure to ask for clarification on any and all issues [It is better to receive correct information than to accept rumors.] (4) Read your Rowan University email, your Advisors will send general information and communicate with you personally through your Official Rowan University Email.
