Become a member of a student group whose goal is to explore the concepts of diversity and social equity, including, race, gender, nationality, religion, sexuality, class, disabilities, and ethnicity and how they translate into the field of education. *Educators for Diversity & Social Equity* value acceptance and understanding and work toward moving beyond simple tolerance to embracing and celebrating the rich dimensions of diversity contained within each individual. Our goal is to provide future educators with a safe, positive, and nurturing environment where students can explore ways to address and integrate diversity and fluidity into lesson plans and learning communities. As *Educators for Diversity & Social Equity* we are committed to social responsibility and centering marginalized voices and experiences both in and out of the classroom.
